

A

B

$A \setminus B$

A Venn diagram consisting of two overlapping circles, A and B. Circle A is on the left and is filled with a solid red color. Circle B is on the right and is white with a black outline. The intersection of the two circles is also white. The label 'A' is positioned at the top left of circle A, 'B' is at the top right of circle B, and 'A \setminus B' is centered within the red area of circle A.
